

ICFAI University Mizoram Engages in Industry-Oriented Faculty Development Program

ICFAI University Mizoram faculty representatives participated in a Two-Day Faculty Development Program organized by the ICFAI Group in collaboration with Oracle Academy, NASSCOM FutureSkills Prime, Celonis, and MongoDB at Noida on 20–21 April 2026.

The program focused on strengthening industry–academia collaboration, emerging digital technologies, AI, database systems, and skill-based education.

Key takeaways from the program included:

- Integration of AI, cloud technologies, and process mining into academics
- Opportunities for free certifications, internships, and industry-aligned courses
- Use of AI-driven database systems and modern multi-model databases
- Curriculum enhancement through industry partnerships and real-world applications

The event also featured collaboration handovers with Celonis, MongoDB, and Oracle Academy to support faculty development and student employability initiatives.

Representing ICFAI University Mizoram were Mr. Malsawma Hauhnar, HOD, Department of Information Technology, and Mr. Vanlalchhuanmawia, Assistant Professor, Department of Information Technology.
